

SPEAD PROGRAM

Graduates with master's degrees in

- Petroleum Engineering (Drilling, Reservoir, Production)
- Petroleum Geoscience (Geology & Geophysics)
- Safety and Environmental Engineering
- Chemical and Process Engineering with E+P focus

are invited to apply for Wintershall Dea's SPEAD program.

The aim of the SPEAD program is to develop highly qualified university graduates in engineering and geoscience within our company. We offer you a tailor-made combination of "on the job training" supplemented with dedicated technical training for a duration of 24 months in order to equip you with the skills and competencies to excel in your future role within Wintershall Dea. SPEAD combines practical training within the company's domestic and international operational units with training courses dealing in-depth with technical issues.

Essential for the SPEAD program, and for your employment with Wintershall Dea, are a Master's degree, your mobility and enthusiasm to take on demanding assignments and projects.

Please submit your application in English including your CV, personal motivation letter and your relevant certificates or references via the following email-address jobs-germany@wintershalldea.com until

November 10, 2019.
